

Web App Improvement for Technology Innovators

PROJECT DETAILS

 Custom Software Development

 Mar 2022 - Ongoing

 \$10,000 to \$49,999

“

"We continue to work together, and it has been great."

PROJECT SUMMARY

SCSS Consulting helps a technology innovation firm improve their existing web app and its order management tool. They have updated and enhanced the client's platform, which is built using Angular and Node.js.

PROJECT FEEDBACK

SCSS Consulting has completed the project tasks on time with minimal revisions. They are responsive and professional, working on an existing ticketing system and Git for project management. So far, the client is happy with the continuous collaboration with the team.

The Client

Please describe your company and your position there.

I'm the co-founder/CTO of data/technology based businesses.

The Challenge

For what projects/services did your company hire SCSS Consulting, and what were your goals?

We had an internal order management and reporting tool that we had planned a roadmap of enhancements to improve and automate tasks we were doing.

David Lu
Co-Founder & CTO, GDML

Software

Sydney, Australia

CLIENT RATING

5.0

Overall Score

Quality: 5.0

Schedule: 5.0

Cost: 5.0

Would Refer: 5.0

The Approach

How did you select this vendor and what were the deciding factors?

Sachit was a great communicator and very responsive. He was knowledgeable and gave me the confidence in his team.

Describe the scope of work in detail, including the project steps, key deliverables, and technologies used.

Updating and enhancing an existing internal web app built in Angular/NodeJS that analyses data from third party API's and generates reports.

How many people from the vendor's team worked with you, and what were their positions?

I mainly worked with Sachit, who was the owner of the business and managed all the projects.

The Outcome

Can you share any measurable outcomes of the project or general feedback about the deliverables?

All the tasks were completed in an efficient manner and had minimal rounds of revisions, was great to work with.

Describe their project management style, including communication tools and timeliness.

Very professional, knowledgeable and responsive. They were able to work in our existing ticketing system and git workflow.

What did you find most impressive or unique about this company?

Sachit was based in the same country as I am, so there was no timezone issues and was easy to communicate.

scjss

Are there any areas for improvement or something they could have done differently?

So far, not really. We continue to work together, and it has been great.
